Annual Listing of Projects with Federal Funding Obligated for Federal Fiscal Year 2019

On December 4th, 2015, President Obama signed into law the Fixing America's Surface Transportation Act (FAST Act) which allocates federal funding for surface transportation programs over fiscal years 2016 through 2020. Per 23 U.S.C. § 134(j)(7)(B) of FAST Act, states and Metropolitan Planning Organizations (such as the SPC) must publish annual lists of projects where federal funds were obligated. Specifically, states and MPOs must produce:

"An annual listing of projects, including investments in pedestrian walkways and bicycle transportation facilities, for which Federal funds have been obligated in the preceding year shall be published or otherwise made available by the cooperative effort of the State, transit operator, and metropolitan planning organization for public review." 1

An obligation is the Federal government's legal commitment to pay the Federal share of a project's cost. An obligated project is one that has been authorized by the federal agency and for which funds have been committed. Projects for which funds have been obligated are not necessarily initiated or completed in the program year, and the amount of the obligation will not necessarily equal the total cost of the project. For Federal Transit Administration (FTA) projects, obligation occurs when the FTA grant is awarded. For Federal Highway Administration (FHWA) projects, obligation occurs when a project agreement is executed and the State/grantee requests that the funds be obligated.

The FAST ACT also dictates that government spending on transportation should be more transparent to State and Local Officials, as well as to the public. As such, the obligated list of projects must be developed through the cooperative efforts of the state, the metropolitan planning organization (MPO) and the public transportation operators who are responsible for tracking project authorizations and obligations spend during the immediately preceding fiscal year.

To address these requirements, this report lists all FHWA transportation projects in the SPC region that were obligated during Federal Fiscal Year 2019 (October 1, 2018 - September 30, 2019). For transit project obligations please see the *Listing of Transit Project Obligations FFY 2019* Document. For more information regarding projects listed in this document, please use the MPMS numbers and project descriptions provided below to look up projects on the [PennDOT One Map application](#).

For more information, please contact Lillian Gabreski at lgabreski@spcregion.org.

1. 23 U.S.C. § 134(j)(7)(B)

Southwestern Pennsylvania Commission**Regional Use of Federally Obligated Funds
for Federal Fiscal Year 2019**

The table on the following page breaks down projects in SPC's region which were federally obligated in FFY 2019 by federal funding class. The total federal funding obligated to projects during FFY 2019 was \$285,586,618, which was nearly \$18,000,000 more than the total obligated in FFY 2018. There was \$30,959,976 in savings from previously completed projects, also slightly higher than in FFY 2018, which was deobligated from completed projects and obligated to other projects.

The majority of obligated funds were for highway/bridge projects (58.6%), followed by urban transportation projects (15.9%). A \$19,000,000 TIGER grant to fund the I-579 "Cap" project in the City of Pittsburgh (see "federal discretionary") made up 6.6% of the total obligated funds in FFY 2019.

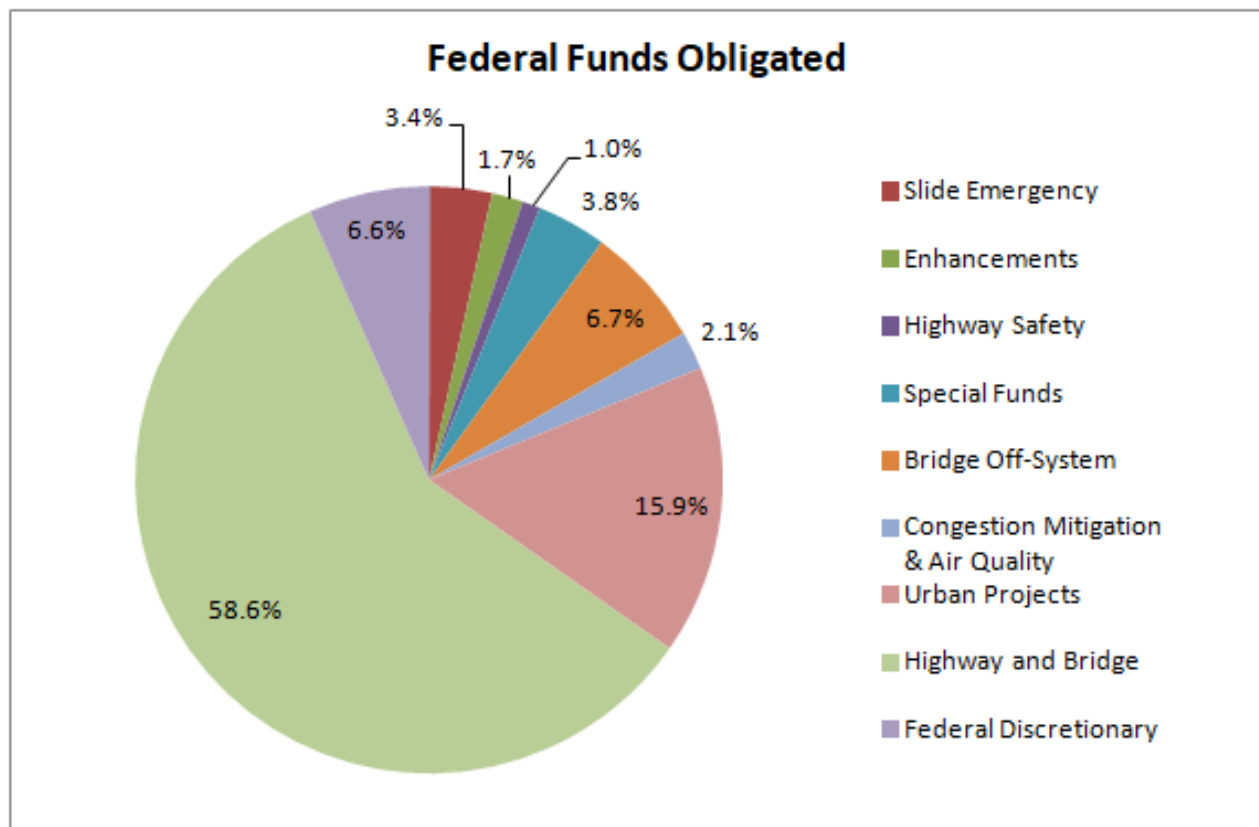

Other significant projects that obligated funds in FFY 2019 included the PA 356 Truck Climbing Lane in Westmoreland County (\$9,000,000), PA 286 from Rustic Lodge Road to the US 422 Interchange in Indiana County (\$6,686,000), Butler Bypass in Butler County (\$6,649,471), and Kenmawr Bridge in Swissvale in Allegheny County (\$5,000,000). A significant number of landslides in the region in 2018 resulted in a substantial increase of projects obligating federal emergency slide funds in FFY 2019 - \$9,000,000 more than the \$600,000 in slide funds obligated during FFY 2018.

Complete funding amounts are provided in the table, and the funding distribution of obligated funds is illustrated in the pie chart. A comprehensive summary report of individual projects and obligation/deobligation amounts is included beginning on the fifth page.

TIP Projects Obligated in FY 2019

Federal Funding Class	Obligated	%	Deobligated	%
Appalachia Regional Commission (APL)	\$135,000	0.0%	-\$1,265	0.0%
Slide Emergency (FFL)	\$9,727,856	3.4%	\$0	0.0%
Enhancements (TAP)	\$4,851,432	1.7%	-\$226,149	1.0%
Highway Safety (HSIP, RRX)	\$2,842,023	1.0%	-\$1,874,850	5.8%
Special Funds (SXF)	\$10,979,318	3.8%	-\$136,476	0.4%
Bridge Off-System (BOF)	\$19,122,539	6.7%	-\$2,043,821	6.4%
Congestion Mitigation & Air Quality (CAQ)	\$6,008,966	2.1%	-\$7,026,562	21.9%
Urban Projects (STU)	\$44,764,336	15.9%	-\$4,087,194	15.4%
Highway and Bridge (BON, BOO, NHPP, NHS, STP, STN, STR)	\$168,155,149	58.6%	-\$15,362,923	49.1%
Federal Discretionary (TIGER)	\$19,000,000	6.6%	-\$200,735	0.0%
Grand Total:	\$285,586,618		-\$30,959,976

30825	Chartiers Creek #53	This local project is the improvements to the structure carrying SR 7204 (North Hewitt Avenue T-623) over Chartiers Creek in Canton Township, Washington County.	Washington	PE	STP	\$268,000	
30949	PA 519/SR 1055 Intersect.	The project proposes improvements to the existing skewed intersection of SR 519 and SR 1055 (a.k.a. Brownlee Road, to the south, and Thomas Eighty Four Road, to the west), located in North Strabane Township, Washington County PA. The proposed improvement includes the reconstruction of the skewed intersection to provide dual roundabouts. Several other roundabout configurations were considered as well as a more traditional dual signalized intersection; however, the proposed dual roundabout option best addresses the project needs by achieving the highest level of service and capacity for current and design year conditions, best addresses issues of route continuity and safety, reduces environmental and property impacts, operates at a lower and safer design speed, and has a lower initial cost as well as future maintenance costs.	Washington	CON	HSIP		-\$810,620
			Washington	UTL	HSIP		-\$96,850
