

**2011-2014 TRANSPORTATION IMPROVEMENT PROGRAM
FOR SOUTHWESTERN PENNSYLVANIA**

APPENDIX 2

HIGHWAY PROGRAM PROJECT LIST

Appendix 2. Highway Program Project Lists

Appendix 2 presents the Highway Program projects for the 2011-2014 TIP and provides important project and funding information. 2011-2014 TIP projects have been mapped, where possible, with a map number assigned to each project. Project identification numbers appear in the map index and can be used to relate a mapped project to the same project on the project list. The region's project listing is shown in alphabetical order by county for convenience.

Line Items

Projects that cannot be mapped, such as studies and certain types of line item projects, appear only on the Project Lists.

Interstate Projects

Projects funded through the State Interstate Maintenance Program are listed in the 2011-2014 TIP in Appendix 6. They appear for information purposes only and are not included in the SPC project lists or TIP maps. The list in Appendix 6 identifies projects that are funded at the state level through PennDOT. All of the state projects are system preservation projects.

Some projects on the Interstate System, however, are funded with formula funds allocated to SPC and appear on the TIP maps and project lists. These projects typically add capacity to the transportation system. They are the funding equivalent of the non-interstate projects that appear on the 2011-2014 TIP.
