

**2011-2014 TRANSPORTATION IMPROVEMENT PROGRAM
FOR SOUTHWESTERN PENNSYLVANIA**

APPENDIX 6

**STATEWIDE INTERSTATE MAINTENANCE PROGRAM
FOR SOUTHWESTERN PENNSYLVANIA**

Appendix 6. Statewide Interstate Maintenance Program for Southwestern Pennsylvania

The Statewide Interstate Maintenance Program (IMP) took effect in fiscal year 2007. Approximately \$370 million per year has been reserved for this program from federal Interstate Program funds, associated federal Bridge Program funds and state matching funds. This program is for system preservation projects in order to focus resources on the state's aging interstate system, especially those parts in greatest need of repair. Projects are selected based on engineering criteria developed by PennDOT. IMP projects will be programmed centrally by PennDOT in consultation with MPOs and RPOs. Projects in the Statewide IMP for the Southwestern Pennsylvania region are listed in the following table.

**Southwestern Pennsylvania Commission
2011-2014 Interstate Maintenance Projects**
