

Greene County  
 Status Report on Title I Transportation Projects  
 Proposed for State / Federal Funding

The projects on the attached list are at different stages of consideration for budgeting on the Transportation Improvement Program (TIP). Some were recently completed or are well on their way (Status 1 or 2). Others have been partially but not yet fully budgeted (Status 3 or 4).

Typically, a project must be funded first for engineering, then perhaps for right-of-way acquisition or utilities relocation, and finally for construction. Projects that have been partially budgeted may have progressed only through the initial stage of engineering and environmental studies, without being budgeted yet for implementation.

There are more needs than can be met with currently available revenues. As a result, new revenues must be sought and the region must decide how to make the most of what is available. In order to complete projects that already have a partial investment or are urgently needed, other projects must sometimes wait in line.

This table provides a status report to clarify where specific projects stand as of June 2, 2010.

**Project status**

1. Budgeted to completion on the TIP in 2007, 2008, 2009 or 2010
2. Fully budgeted on the 2011-2014 TIP to the best of our knowledge
3. Partially budgeted on the 2011-2014 TIP due to budget shortfall
4. Initiated on a previous TIP, but not advanced on the 2011-2014 TIP

County	SR	MPMS	Project Name	Project Description	Status	Est Cost Remaining	Est Total Cost	Est Eng Cost	Est ROW Cost	Est Const Cost
Greene		30170	Brown's Creek Bridge	Bridge Rehabilitation	1		\$3,436,947	\$664,000	\$308,080	\$2,464,867
