Independent Auditor's Report

Executive Committee and Commissioners
Southwestern Pennsylvania Commission

We have audited the accompanying financial statements of the governmental activities and each major fund of Southwestern Pennsylvania Commission (Commission) as of and for the year ended June 30, 2007, which collectively comprise the basic financial statements of the Commission's primary government as listed in the table of contents. These financial statements are the responsibility of the Commission's management. Our responsibility is to express an opinion on the financial statements based on our audit. The prior year's summarized comparative information has been derived from the Commission's primary government 2006 financial statements and, in our report dated October 18, 2006, we expressed an unqualified opinion on those financial statements.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as, evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The financial statements referred to above include only the primary government of the Commission, which consists of two funds that comprise the Commission's legal entity. The financial statements do not include financial data for the Commission's legally separate component unit, which accounting principles generally accepted in the United States of America require to be reported with the financial data of the Commission's primary government. As a result, the primary government financial statements do not purport to, and do not, present fairly the financial position of the reporting entity of the Commission, as of June 30, 2007, and the changes in its financial position and its cash flows, where applicable, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund for the primary government of the Commission as of June 30, 2007, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Executive Committee and Commissioners
Southwestern Pennsylvania Commission
Independent Auditor's Report
Page 2

The Management's Discussion and Analysis Section on pages i through iii is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying additional information listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such additional information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

**SOUTHWESTERN PENNSYLVANIA COMMISSION
PRIMARY GOVERNMENT
MANAGEMENT'S DISCUSSION AND ANALYSIS**

This Management's Discussion and Analysis (MD&A) of the financial performance of the Southwestern Pennsylvania Commission (SPC), the Primary Government, is to provide an understanding and analysis of the basic financial statements for the fiscal year ending June 30, 2007. The following analysis should be used in conjunction with the included financial statements.

Highlights

- Total net assets for the fiscal year ending June 30, 2007 equal \$454,790.
- Total net assets are unchanged from the previous year.
- Total primary government revenues recognized equal \$8,656,906.
- Total operating transfers in from component unit equal \$441,126.
- Total primary government program activities expenditures equal \$9,098,032.
- Total federal grant funds recognized for the year equal \$5,329,316.
- Total state grant funds recognized for the year equal \$2,039,565.
- Total contributions recognized for the year equal \$257,749.

Basic Financial Statements

SPC uses the accrual basis of accounting to record revenues when earned and to record expenditures when incurred. SPC general ledger accounts and financial statements are presented as governmental activities.

The following financial statements serve as the basis for the analysis of SPC's financial position.

- **Statement of Net Assets** – this financial statement summarizes the overall capital structure of SPC as to whether company assets were financed by incurring debt or equity. Increases or decreases in net assets and/or liabilities can be a useful indicator as to whether the financial position of SPC is improving or deteriorating. This statement also reflects the overall financial strength of SPC including its governmental activities compared to the previous year. In summary, SPC is in a strong financial position to cover liabilities at year-end without incurring any debt.

	<u>June 30, 2007</u>	<u>June 30, 2006</u>
Assets		
Cash and cash equivalents	\$ 432,779	\$ 462,443
Accounts receivable	<u>1,320,582</u>	<u>1,225,307</u>
Total Assets	<u>\$ 1,753,361</u>	<u>\$ 1,687,750</u>
Liabilities		
Total Liabilities	<u>\$ 1,298,571</u>	<u>\$ 1,232,960</u>
Net Assets		
Total Net Assets	<u>\$ 454,790</u>	<u>\$ 454,790</u>

- **Statement of Activities** – this financial statement provides information on SPC’s programs by functions and the revenues generated or used to support program related expenses. This statement generally is a balanced statement for the governmental activities meaning that revenues match expenses. As this statement reports, a total of \$9,098,032 in program and general revenues is needed to support governmental activities.

<u>Summary</u>	<u>Expenses</u>	<u>Operating Grants and Contributions</u>	<u>Governmental Activities</u>
Total governmental activities	<u>\$ 9,098,032</u>	<u>\$ 7,368,881</u>	<u>\$ (1,729,151)</u>
Total general revenues and transfers			<u>1,729,151</u>
Change in net assets			-
Net assets - beginning of year			<u>454,790</u>
Net assets - end of year			<u>\$ 454,790</u>

- **Balance Sheet – Governmental Funds** – this financial statement reports information about SPC governmental fund activities and details changes in the organization’s financial position. This report includes all assets, liabilities, and unreserved fund balance as of June 30, 2007. This statement reports financial information for the SPC Special Revenue Fund, which receives federal and state grant funding to support its planning activities and which are transferred out to the Southwestern Pennsylvania Corporation to pay expenditures. The Special Revenue Fund maintains the SPC program grant advances received and restricted for program expenses. Accounts receivable reflect program grant funds due relating to the various planning and economic development programs undertaken by SPC.

- **Statement of Revenues, Expenditures, and Changes in Fund Balance – Governmental Funds** – this financial statement reports information on the accrual basis of accounting which is most commonly found with a quasi-governmental entity. The overall financial health of SPC is a product of its ability to secure federal, state, local, and private financial assistance grants to move project studies forward. In summary, after review of the overall financial position of SPC, it is management’s opinion that there are sufficient fund balance reserves to cover unforeseen charges.

At SPC, fiscal year 2006-2007 was a year of expanding our partnerships and focusing on the future.

SPC partnered with many state, regional, and local groups to lay the foundation for a new plan for Southwestern Pennsylvania – Project Region. In forums throughout our region, we gained a fresh perspective on what it means to be a region and how to plan for our future. After first listening to residents throughout the region about what was important to them, we began crafting a new way of looking at and talking about our region.

We held forums in partnership with governmental, business, and non-profit leadership that focused on economic development, land use, and transportation. These discussions reminded us that for many people, basic needs still are foremost in their minds - needs such as good jobs, revitalized communities, and dependable transportation.

Partnering with civic groups like Sustainable Pittsburgh re-enforced our belief that everyone has a stake in the new economy and everyone has something to offer in building on our region’s strengths.

Much of the work of SPC is accomplished through our committees. In effect, SPC is the committees and the volunteers that diligently serve on them. It is these committees that develop our plans along with the highly professional staff that supports them. In this annual report, we have sought to present the perspectives of the committees that work through difficult choices, make recommendations, and provide a solid grounding for all decisions made by SPC.

We are proud of the true regional engagement that has fostered the progress reported herein. We look forward to the coming years as we work together to bring these plans to fruition.

Contacting SPC’s Finance Director

If you have any questions about this report, please contact SPC’s Finance Director, 425 Sixth Avenue, Suite 2500, Pittsburgh, PA 15219.

SOUTHWESTERN PENNSYLVANIA COMMISSION

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2007

1. ORGANIZATION

The Southwestern Pennsylvania Commission (Commission) is a voluntary organization comprising the ten Counties of Allegheny, Armstrong, Beaver, Butler, Fayette, Greene, Indiana, Lawrence, Washington, and Westmoreland, as well as the City of Pittsburgh. It was created under the Regional Planning Law, May 29, 1956, P.L. 1845, as amended, Section 3 of the Intergovernmental Cooperation Act, Number 180, July 12, 1972. The general purpose to be accomplished through the establishment of the Commission is to foster cooperative planning and coordinated effort among local government jurisdictions in southwestern Pennsylvania and to serve as a forum for the discussion of their common problems and aspirations. In keeping with this general purpose, the Commission maintains active programs of transportation planning and programming, economic development planning, and technical assistance to local governments.

The Commission consists of sixty-one voting individuals called Commissioners, which represent the Members of the Commission, the Pennsylvania Department of Transportation, the Governor's Office, the Pennsylvania Department of Community and Economic Development, the Port Authority of Allegheny County, and the Transit Operators Committee. The Commission is managed by Officers elected by the Commissioners.

The Commission has retained the Southwestern Pennsylvania Corporation (Corporation), a component unit, to conduct studies and render services and to perform its administrative functions. All administrative costs and the costs associated with studies or services provided by the Corporation on behalf of the Commission are allocated directly or by an indirect cost allocation plan. The Corporation is a tax-exempt corporation whose operations consist primarily of services provided to the Commission and the operation of the Regional Enterprise Tower.

The Commission maintains an ongoing program of assistance to local governments. It is intended to help local elected officials improve management techniques and fiscal practices that will result in more efficient municipal operations. These intentions are accomplished by producing practical reference manuals, conducting workshops, and furnishing services directly to community officials on a selective basis.

As the designated Metropolitan Planning Organization, the Commission develops a comprehensive transportation plan and a transportation improvement program for the Southwestern Pennsylvania area. The scope of the planning and programming process includes highways, bridges, transit, and airport system elements. Projects

SOUTHWESTERN PENNSYLVANIA COMMISSION

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2007

must originate in the plan and be consistent with the program to qualify for federal funding. The Commission receives the majority of its funding from the Pennsylvania Department of Transportation.

The Commission contributes to the ongoing economic development effort in the region by sponsoring transportation related economic impact studies, when warranted, and by providing technical support services to existing economic development agencies so they can perform their roles more effectively.

The Commission is exempt from federal income tax as a governmental entity defined in Section 115(2) of the Code.

In accordance with the Governmental Accounting Standards Board (GASB) Statement No. 14, "*Financial Reporting Entity*," the Commission is defined as a primary government. Consistent with applicable guidance, the criteria used by the Commission to evaluate the possible inclusion of related entities within its reporting entity are financial accountability and the nature and significance of the relationship. In determining financial accountability in a given situation, the Commission reviews the applicability of the following criteria:

The Commission is financially accountable for:

1. Organizations that make up the legal entity.
 2. Legally separate organizations if the Commission appoints a voting majority of the organizations' governing body and the Commission is able to impose its will on the organization or if there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the Commission.
 - a. Impose its Will - If the Commission can significantly influence the programs, projects, or activities of, or the level of services performed or provided by, the organization.
 - b. Financial Benefit or Burden - Exists if the Commission (1) is entitled to the organization's resources, or (2) is legally obligated or has otherwise assumed the obligation to finance the deficits of, or provide support to, the organization, or (3) is obligated in some manner for the debt of the organization.
-

SOUTHWESTERN PENNSYLVANIA COMMISSION

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2007

3. Organizations that are fiscally dependent on the Commission. Fiscal dependency is established if the organization is unable to adopt its budget, levy taxes, or set rates or charges, or issue bonded debt without approval by the Commission.

The only entity that should be considered a component unit of the Commission is the Corporation, whose relationship to the Commission is discussed above. These financial statements include the financial position and results of operation of the primary government only, the Commission. Separate financial statements can be obtained that include both the Commission and the Corporation at the Commission's address at 425 Sixth Avenue – Suite 2500, Pittsburgh, PA 15219.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all the activities of the Commission. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. The Commission has no business-type activities.

The statement of net assets presents the financial condition of the governmental and business-type activities of the primary government as of year-end.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Amounts paid on behalf of the Commission by the Corporation are reflected on the statement of activities as expenses. The Corporation initially pays for all expenses of the Commission and is subsequently reimbursed by the Commission. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Other items not properly included among program revenues are reported instead as general revenues.

SOUTHWESTERN PENNSYLVANIA COMMISSION

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2007

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

Grants and member contributions associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The Commission reports the following major governmental funds:

The Commission General Fund accounts for all the financial resources of the Commission, except for those required to be accounted for in another fund.

The Commission Special Revenue Fund (Grants Fund) accounts for proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided and 2) operating grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues.

When both restricted and unrestricted resources are available for use, it is the Commission's policy to use restricted resources first, then unrestricted resources as they are needed.

SOUTHWESTERN PENNSYLVANIA COMMISSION

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2007

In-Kind Contributions

In-kind contributions include services provided by various organizations which are recorded at estimated value and volunteer time for specific services, which is recorded at predetermined rates applied on an hourly basis. The services are recognized when the in-kind support is characterized as integral to operations. Contributed support is recognized in the financial statements in accordance with Appalachian Regional Commission regulations.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Budgets and Budgetary Accounting

The Commission does not have a legally adopted budget that would require a separate budgetary comparison schedule. Budgetary control for the Commission is maintained through enforcement of the related grant provisions.

3. CASH AND CASH EQUIVALENTS

Pennsylvania statutes provide for investment of governmental funds into certain authorized investment types including U.S. Treasury bills, other short-term U.S. and Pennsylvania government obligations, insured or collateralized time deposits, and certificates of deposit. The statutes allow pooling of governmental funds for investment purposes.

The deposit and investment policy of the Commission adheres to state statutes. Deposits are maintained in demand accounts. There were no deposit or investment transactions during the year that were in violation of either the state statutes or the policy of the Commission.

GASB Statement No. 40, "*Deposit and Investment Risk Disclosures*" requires disclosures related to the following deposit and investment risks: credit risk (including custodial credit risk and concentrations of credit risk), interest rate risk,

SOUTHWESTERN PENNSYLVANIA COMMISSION

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2007

and foreign currency risk. As of year-end, the Commission does not hold any investments, as such, the following is a description of the Commission's deposit risk:

Custodial Credit Risk - Custodial credit risk is the risk that in the event of a bank failure, the Commission's deposits may not be returned to it. The Commission does not have a formal deposit policy for custodial credit risk. As of June 30, 2007, \$332,779 of the Commission's bank balance of \$432,779 was exposed to custodial credit risk, which is collateralized in accordance with Act 72 of the Pennsylvania state legislature which requires the institution to pool collateral for all governmental deposits and have the collateral held by an approved custodian in the institution's name. These deposits have a carrying amount of \$432,779 as of June 30, 2007.

4. ACCOUNTS RECEIVABLE

Accounts receivable consists of the following:

Pennsylvania Department of Transportation	\$	960,918
Federal Transit Administration		95,318
Outside projects		264,346
		<hr/>
	\$	<u>1,320,582</u>

5. CONTINGENCY

The Commission receives significant financial assistance from federal and state governmental agencies in the form of grants. The disbursement of such funds generally requires compliance with contract requirements and is subject to audit. Any disallowed costs resulting from such audits could become a liability of the Commission. The amount, if any, of expenditures that may be disallowed by the granting agencies cannot be determined at this time. Management expects such amounts, if any, to be immaterial.

The Commission is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The Commission maintains insurance through an independent insurance carrier for these types of business losses. Settled claims for these risks have not exceeded commercial insurance coverage for the past three years. There have been no significant changes in insurance coverage since the prior fiscal year. Management believes the insurance coverage is sufficient to cover the Commission against potential losses.
