

-  **Above Average for Bicycling -**
Road segments that are most suitable for cycling
-  **Average for Cycling**
Road segments that are average at best for cycling. Cyclists of lesser skill may find these conditions unfavorable.
-  **Below Average for Cycling**
Road segments that are least suitable for cycling. Cyclists may have to use these segments if they are the most direct route between two other routes.
-  **Local Street**
-  **Expressway**

-  Traffic Signal
-  Existing Trail
-  Transit Park N Ride
-  Significantly steep or long grade (arrow points uphill)

Ratings shown on this map were determined using a combination of traffic volumes, roadway geometry and field observations. The ratings apply to cyclists experienced in operating in an urban environment. Use this map as a tool, but do not substitute it for your own common sense. SPC and the individuals who developed this map assume no liability for the safety of cyclists using these routes.
