# TRANSPORTATION & COMMUNITY FUNDING PROGRAMS

## Grant and Reimbursement Programs to Advance and Guide Effective Investment of Public Funds

The Southwestern Pennsylvania Commission (SPC) serves the 10-county Pittsburgh region as the official Metropolitan Planning Organization, Local Development District, and Economic Development District. SPC's Transportation Department meets federal mandates with the publication of a long-range (20-year) transportation plan and the establishment of a short-range (4-year) Transportation Improvement Program (TIP). Planning activities range from data systems and modeling to special transportation studies and air quality analysis.

SPC is committed to assisting our local governments and agencies in the preparation, planning, and execution of their community's priority projects and investments. The information within this document will provide local project sponsors a guide to available resources that can assist with the implementation of a community's shared goals.
