Title: Streets Run Road Flood Control

Improvement Type: Restoration

State Route: 2046

Municipality: West Mifflin (BORO)

Air Quality Status: Exempt from Regional Conformity Analysis

Actual Construction Bid Date:

Estimated Construction Bid Date: 4/15/2028

Location: Located on SR 2046 (Streets Run Road) from Prospect Road to Baldwin Road in Baldwin and West Mifflin Boroughs, Allegheny County.

Project Description: Study to assess resilience improvements on SR 2046 (Streets Run Road) from Prospect Road to Baldwin Road in Baldwin and West Mifflin Boroughs, Allegheny County. This road continuously floods, causing the need for immediate action from the Maintenance Division. A comprehensive study is needed to determine where flood control measures can be constructed to mitigate this concern.

Municipality:

Title: TMA TDM Programming & Outreach 25-26

State Route: 0

Air Quality Status: Exempt from Regional Conformity Analysis

Actual Construction Bid Date:

Estimated Construction Bid Date:

Location: throughout multiple municipalities in Allegheny County

Project Description: This project is for the programming and outreach activities of Allegheny County's 3 Transportation Management Associations:

Airport Corridor Transportation Association (ACTA) provides marketing, education and outreach services to improve air quality and mitigate congestion in the ACTA service area, including the RideACTA Shuttle Transit Service and Montour Trail Council efforts for commuting alternatives. ACTA will also work with PennDOT District 11-0 to provide example TDM solutions for consideration during the PennDOT Connects process that will serve to reduce emissions and improve air quality.

The Oakland Transportation Management Association (OTMA) disseminates information, provides commuter resources tools, and traveler information services to employers, employees, students, residents, visitors, businesses and property owners. TDM efforts include continuous outreach and the providing of information to support better decision-making for travelers choosing modal options, trip times, and locations. Activities are aimed at reducing single-occupancy travel. OTMA Partners with Sustainability Teams from University of Pittsburgh Medical Center (UPMC) and the Allegheny County Health Department, distributes information on WalkPittsburgh and POGOHO bike-sharing) and promotes ride-matching assistance by CommuteInfo on the OaklandSmartCommute.org website.

Pittsburgh Downtown Partnership (PDP) coordinates education and outreach activities, access to work initiatives, and Transportation Demand Management promotion for the Pittsburgh Golden Triangle region. TMA staff provides TDM related content for two newsletters for Downtown stakeholders that cover traffic congestion issues and highlight newly implemented multimodal projects in the Downtown area. TMA staff coordinates a bi-monthly Construction Coordination Task Force (CCTF) with public agency, utility, and private developer representatives to ensure TDM related information is included in their communications on current or future construction projects.

Project Administrator: BikePGH

Title: Bike Light/Helmet Give-Away and Education Program

Improvement Type: Bicycle Facilities/Services

State Route: 0

Municipality:

Air Quality Status: Exempt from Regional Conformity Analysis

Actual Construction Bid Date:

Estimated Construction Bid Date: 7/15/2026

Location: Providing bike light sets and helmets at Pittsburgh public or Charter schools in the City of Pittsburgh, Allegheny County. These events will provide education and encouragement for biking and walking to school.

Project Description: Bike Pittsburgh will coordinate at least five distribution and education events at five unique Pittsburgh Public or Charter Schools in the city. These events will provide education and encouragement for biking and walking to school in an assembly or classroom format. At least 100 bike light sets and helmets will be distributed to students during each event. Specific time and attention will be placed on proper helmet fitting for each unique student. This pilot year will help establish baseline data for future expansion.

Title: Browns Lane and McKnight Road Sidewalk Connector

State Route: 0

Air Quality Status: Exempt from Regional Conformity Analysis

Actual Construction Bid Date:

Estimated Construction Bid Date: 4/23/2026

Location: Browns Lane from Toyota Dealer to McKnight Road, in Ross Township, Allegheny County.

**Project Description:** Construct new sidewalks on Browns Lane from the Toyota Dealer to McKnight Road, in Ross Township, Allegheny County. This project also includes replacement of a portion of an existing retaining wall supporting the slope behind the proposed sidewalk and existing Dollar Bank parking lot. Finally, improvements to two Pittsburgh Regional Transit (PRT) bus stop locations will be evaluated for 5' x 8' accessible boarding areas.

Title: US 422 County Line East PM

State Route: 422

Air Quality Status: Exempt from Regional Conformity Analysis

Actual Construction Bid Date: 3/28/2024

Estimated Construction Bid Date: 3/28/2024

Location: Various locations in Armstrong and Butler Counties. See public narrative.

Project Description: This roadway resurfacing includes the milling of existing bituminous material, minor drainage, transverse and longitudinal joint repair, and paving of bituminous leveling and wearing courses along US 422 from the Butler County line east to 0.37 mile west of the East Franklin Township line in West Franklin and East Franklin Townships and Worthington Borough, Armstrong County. Also included is ramp patching and repaving at the interchange associated with PA 268 and US 422, which includes preventative maintenance work on the bridge carrying PA 268 over US 422 in East Franklin Township, Armstrong County. Furthermore this project also includes bridge work to include the structure carrying US 422 over SR 4005 Eastbound in Muddy Creek Township, Butler County.

State Route: 4023

Municipality: East Franklin (TWP)

Air Quality Status: Exempt from Regional Conformity Analysis

Actual Construction Bid Date:

Estimated Construction Bid Date: 10/22/2026

**Location:** Slide Repairs along SR 4023 located approximately 1.1 and 1.6 miles north of the intersection with Business 422 (Butler Road) in East Franklin Township, Armstrong County.

**Project Description:** Slides Correction along SR 4023 at approximately 1.1 and 1.6 miles north of the intersection with Business 422 (Butler Road) in East Franklin Township, Armstrong County.

Improve the resilience of the slope during heavy rain/high water events by using soil nails, providing additional strength to the slope during periods of high groundwater elevations, and increasing the safety factor of the slopes. Stabilization of these areas will also prevent future failures at these pre-damaged locations and reduce the long-term maintenance.

Project Administrator: PennDOT

Title: SR 66/SR128 Riverside Light Upgrade

Improvement Type: Existing Signal Improvement

State Route: 66

Municipality: Manor (TWP)

Air Quality Status: Exempt from Regional Conformity Analysis

Actual Construction Bid Date:

Estimated Construction Bid Date: 5/22/2025

**Location:** Intersection of SR 66, SR 128, and Fort Run Road in Manor Township.

**Project Description:** The project includes the complete replacement of the traffic signal at the intersection of SR 66, SR 128, & Fort Run Road, the controller cabinet, equipment, signal heads, pedestrian facilities, and detection in Manor Township. This signal project would include energy-efficient equipment with radar detection to improve traffic flow without adding capacity. The project also includes the installation of ADA ramps and pedestrian signal upgrades for visually impaired pedestrians. Much of the equipment is reaching the end of life cycle and is causing frequent repairs to keep it operational. The scope would be full replacement to a newer style light per PennDOT Guidelines.

Title: McClure/Kingview Road Interchange

Improvement Type: Safety Improvement

State Route: 119

Municipality: Upper Tyrone (TWP)

Air Quality Status: Significant: Included in regional conformity analysis

Actual Construction Bid Date:

Estimated Construction Bid Date: 6/5/2025

**Location:** New Interchange to be constructed over US 119 between US 119/T-821 (McClure Rd.) and US 119/Kingview Road Bullsken and Upper Tyrone Townships, Fayette County Segments 0750/0304 to 0780/2481

**Project Description:** This project is for intersection improvements on US 119 at McClure Road and Kingview Road in Upper Tyrone and Bullsken Townships, Fayette County. The project will eliminate two signalized intersections on US Route 119 with Kingview Road and McClure Road, and a new full-access interchange would be constructed in between the two existing intersections. A new bridge carrying a new connector road would be constructed.

Title: Expansion Dam 2026

Improvement Type: Bridge Preservation Activities

State Route: 0

Municipality:

Air Quality Status: Exempt from Regional Conformity Analysis

Actual Construction Bid Date:

Estimated Construction Bid Date: 4/8/2027

Location: This project is for expansion dam preservation activities to various structures in various municipalities districtwide.

Project Description: This project is for expansion dam preservation activities to various structures in various municipalities districtwide.

Preservation repairs will consist of new strip and compression seals at deck joints, associated deck, back wall, and parapet repairs, other miscellaneous waterproofing details, and other minor preservation items

All structures in the project are currently in Fair and Good condition. The repairs will prevent the structures from becoming poor during the next 10 years.

Title: Slide Repairs 12-24-1

Improvement Type: Slides Correction

State Route: 4022

Municipality:

Air Quality Status: Exempt from Regional Conformity Analysis

Actual Construction Bid Date:

Estimated Construction Bid Date: 8/21/2025

Location: Slide Repairs  
District wide

Project Description: This project is for the remediation and repair of various landslide locations in various municipalities districtwide, and is part of a multi-county, multi-road slide remediation project that will repair existing failures due to multiple past landslide conditions that will result in improving the resilience of the slope during heavy rain/high water events, providing additional strength to the slope during periods of high groundwater elevations, and increasing the safety factor of the slopes. Stabilization of these areas will also prevent future failures at these pre-damaged locations and reduce the long-term maintenance.

Title: Sugar Run Road Intersect

Improvement Type: Safety Improvement

State Route: 2003

Municipality: Franklin (TWP)

Air Quality Status: Exempt from Regional Conformity Analysis

Actual Construction Bid Date: 3/13/2025

Estimated Construction Bid Date: 3/13/2025

Location: SR 2003/ SR 2028  
 Franklin Township  
 Greene County

**Project Description:** This project involves the reconstruction of the SR 2003 (Sugar Run Road)/ SR 2028 (South Porter Street) intersection located in Franklin Township, Greene County. The project is currently in the very early stages of Preliminary Engineering. The design consultant is gathering survey, right of way, and utility data. Once all of this information is obtained, the design consultant will develop a Preliminary Alternative Analysis Report investigating three (3) alternatives for review. The alternates under consideration at this time are a roundabout, relocation of the intersection(s), and improvements to the existing intersections.

Title: Salina Bridge

Improvement Type: Bridge Replacement

State Route: 1060

Municipality: Bell (TWP)

Air Quality Status: Exempt from Regional Conformity Analysis

Actual Construction Bid Date: 1/11/2024

Estimated Construction Bid Date: 1/11/2024

Location: BMS# 64 1060 0010 0000

**Project Description:** The State Route 1060 (Bridge Street)/Salina Bridge over the Kiskiminetas River and Norfolk Southern Railroad connects Bell Township, Westmoreland County with Kiskiminetas Township, Armstrong County. The project proposes to replace the Salina Bridge on a new alignment located immediately downstream from the existing bridge. The proposed bridge is anticipated to be a 3-span continuous composite steel plate girder bridge. The project will also address the existing deteriorated retaining wall parallel with SR 1060 approaching the bridge from the south. The approach roadway will be widened to provide 11' travel lanes and 5' shoulders. The intersections at each end of the bridge will be modified to improve maneuverability. Drainage will be upgraded as well as the guiderail, signs, and pavement markings.

\*No new capacity will be added\*

Title: LVTIP: Norvelt to Pleasant Unity

Improvement Type: Relocation/Realignment

State Route: 981

Municipality: Mount Pleasant (TWP)

Air Quality Status: Exempt from Regional Conformity Analysis

Actual Construction Bid Date:

Estimated Construction Bid Date: 12/3/2026

Location: PA 981 from Norvelt to Pleasant Unity  
Mount Pleasant Township, Westmoreland County

Project Description: This project is for corridor improvements to PA 981 from the village of Norvelt to the village of Pleasant Unity in Mt Pleasant Township, Westmoreland County.

SR 981, Section V20 is approximately 3.5 miles and begins north of the SR 981 and SR 2021 (Kecksburg Road)/Mt. Pleasant Road intersection (Norvelt intersection) in Mount Pleasant Township. From just north of the Norvelt intersection, the project area extends generally along SR 2023 to the intersection with SR 130 in Unity Township. Section V20 primarily follows existing SR 2023 with some offline shifts to improve the roadway. No new capacity is planned.

Title: LVTIP: Pleasant Unity to Airport

Improvement Type: Relocation/Realignment

State Route: 981

Municipality: Unity (TWP)

Air Quality Status: Exempt from Regional Conformity Analysis

Actual Construction Bid Date:

Estimated Construction Bid Date: 6/26/2025

Location: PA 981 from Pleasant Unity to Airport  
Mt Pleasant and Unity Townships, Westmoreland County.

Project Description: The LVTIP (Laurel Valley Transportation Improvement Project) project will upgrade 12 miles of the PA 981 corridor from the intersection with PA 819 in Mount Pleasant Township to the Westmoreland County Airport in Unity Township.

The LVTIP will be constructed in three separate sections. Section Y10 is the northern most and will tie into the recently completed 981-V10 project near the airport. SR 981-Y10 is approximately 2.5 miles in length and begins just south of the intersection of Bingham Road and the SR 2023 (Hill Churches Road) intersection in Mt. Pleasant Township. SR 981- Y10 then primarily follows existing SR 2023 northward to near the intersection with Green Street. At this point, the alignment proceeds in a northwestward direction to the Westmoreland Airpark. It then extends through the Airpark along the southern portion of Bay Hill Drive then intersects with existing SR 981 just south of the Arnold Palmer Airport. No new capacity is planned.

Corridor improvements would include on-line upgrades as well as segments of new alignment where upgrades are not feasible due to physical/environmental constraints.
