Title: SR 2010, Lovedale Road Wall Remediation

Improvement Type: Safety Improvement

State Route: 2010

Municipality: Elizabeth (TWP)

Air Quality Status: Exempt from Regional Conformity Analysis

Actual Construction Bid Date:

Estimated Construction Bid Date: 1/14/2027

Location: Located on SR 2010, Lovedale Road in Elizabeth Township and Lincoln Boro, Allegheny County.

Project Description: Flood and scour remediation on SR 2010 Lovedale Road in Elizabeth Township and Lincoln Borough, Allegheny County. This project will replace ten sections of nearly one hundred year old stacked stock retaining walls with new dura-hold retaining walls. The walls will be faced with scour protection to prevent future deterioration. Failed slopes throughout the corridor will also be repaired with durable rock to prevent future erosion and failure. Extensive one and two-dimensional hydraulic modeling of the project area has been done to ensure the stream levels are not being raised.

**Title:** TMA TDM Programming & Outreach 25-26

**Improvement Type:** Administration

**State Route:** 0

**Municipality:**

**Air Quality Status:** Exempt from Regional Conformity Analysis

**Actual Construction Bid Date:**

**Estimated Construction Bid Date:**

**Location:** throughout multiple municipalities in Allegheny County

**Project Description:** This project is for the programming and outreach activities of Allegheny County's 3 Transportation Management Associations:

Airport Corridor Transportation Association (ACTA) provides marketing, education and outreach services to improve air quality and mitigate congestion in the ACTA service area, including the RideACTA Shuttle Transit Service and Montour Trail Council efforts for commuting alternatives. ACTA will also work with PennDOT District 11-0 to provide example TDM solutions for consideration during the PennDOT Connects process that will serve to reduce emissions and improve air quality.

The Oakland Transportation Management Association (OTMA) disseminates information, provides commuter resources tools, and traveler information services to employers, employees, students, residents, visitors, businesses and property owners. TDM efforts include continuous outreach and the providing of information to support better decision-making for travelers choosing modal options, trip times, and locations. Activities are aimed at reducing single-occupancy travel. OTMA Partners with Sustainability Teams from University of Pittsburgh Medical Center (UPMC) and the Allegheny County Health Department, distributes information on WalkPittsburgh and POGO (bike-sharing) and promotes ride-matching assistance by CommuteInfo on the OaklandSmartCommute.org website.

Pittsburgh Downtown Partnership (PDP) coordinates education and outreach activities, access to work initiatives, and Transportation Demand Management promotion for the Pittsburgh Golden Triangle region. TMA staff provides TDM related content for two newsletters for Downtown stakeholders that cover traffic congestion issues and highlight newly implemented multimodal projects in the Downtown area. TMA staff coordinates a bi-monthly Construction Coordination Task Force (CCTF) with public agency, utility, and private developer representatives to ensure TDM related information is included in their communications on current or future construction projects.

Title: SR 4023 Tarrtown Rd Slides

Improvement Type: Slides Correction

State Route: 4023

Municipality: East Franklin (TWP)

Air Quality Status: Exempt from Regional Conformity Analysis

Actual Construction Bid Date:

Estimated Construction Bid Date: 10/22/2026

Location: Slide Repairs along SR 4023 located approximately 1.1 and 1.6 miles north of the intersection with Business 422 (Butler Road) in East Franklin Township, Armstrong County.

Project Description: Slides Correction along SR 4023 at approximately 1.1 and 1.6 miles north of the intersection with Business 422 (Butler Road) in East Franklin Township, Armstrong County.

Improve the resilience of the slope during heavy rain/high water events by using soil nails, providing additional strength to the slope during periods of high groundwater elevations, and increasing the safety factor of the slopes. Stabilization of these areas will also prevent future failures at these pre-damaged locations and reduce the long-term maintenance.

**Title:** SR 66/SR128 Riverside Light Upgrade

**Improvement Type:** Existing Signal Improvement

**State Route:** 66

**Municipality:** Manor (TWP)

**Air Quality Status:** Exempt from Regional Conformity Analysis

**Actual Construction Bid Date:** 5/22/2025

**Estimated Construction Bid Date:** 5/22/2025

**Location:** Intersection of SR 66, SR 128, and Fort Run Road in Manor Township.

**Project Description:** The project includes the complete replacement of the traffic signal at the intersection of SR 66, SR 128, & Fort Run Road, the controller cabinet, equipment, signal heads, pedestrian facilities, and detection in Manor Township. This signal project would include energy-efficient equipment with radar detection to improve traffic flow without adding capacity. The project also includes the installation of ADA ramps and pedestrian signal upgrades for visually impaired pedestrians. Much of the equipment is reaching the end of life cycle and is causing frequent repairs to keep it operational. The scope would be full replacement to a newer style light per PennDOT Guidelines.

Title: US 119 Connellsville CMAQ

Improvement Type: New Traffic Signal

State Route: 119

Municipality: Connellsville (CITY)

Air Quality Status: Significant: Included in regional conformity analysis

Actual Construction Bid Date: 11/2/2023

Estimated Construction Bid Date: 11/2/2023

Location: US 119 Corridor  
 City of Connellsville, Fayette County

Project Description: The SR 0119, Section SE4 (US 119 Connellsville CMAQ) project is located in the City of Connellsville, Fayette County. The project consists of traffic signal upgrades at six intersections that include US 119's intersections with: SR 1037 (Pittsburgh Street); McDonald's Driveway; York Avenue; Shopping Plaza Driveway; US 119 Southbound & SR 0711/SR 1051 (Crawford Avenue)/SR 0201 (Vanderbilt Road); and US 119 Northbound & SR 0711 (Crawford Avenue). The project will upgrade traffic signal controllers and other equipment as well as include hardware to support coordination of the intersections to improve traffic flow and reduce congestion and queuing. The project also includes upgrading existing ADA and pedestrian facilities at the signalized intersections, and replacement of signing & pavement markings.

**Location:** Slide Repairs  
District wide

**Project Description:** This project is for the remediation and repair of various landslide locations in various municipalities districtwide, and is part of a multi-county, multi-road slide remediation project that will repair existing failures due to multiple past landslide conditions that will result in improving the resilience of the slope during heavy rain/high water events, providing additional strength to the slope during periods of high groundwater elevations, and increasing the safety factor of the slopes. Stabilization of these areas will also prevent future failures at these pre-damaged locations and reduce the long-term maintenance.

**Estimated Construction Bid Date:** 3/13/2025

**Location:** SR 2003/ SR 2028  
Franklin Township  
Greene County

**Project Description:** This project involves the reconstruction of the SR 2003 (Sugar Run Road)/ SR 2028 (South Porter Street) intersection located in Franklin Township, Greene County. The project is currently in the very early stages of Preliminary Engineering. The design consultant is gathering survey, right of way, and utility data. Once all of this information is obtained, the design consultant will develop a Preliminary Alternative Analysis Report investigating three (3) alternatives for review. The alternates under consideration at this time are a roundabout, relocation of the intersection(s), and improvements to the existing intersections.

**Title:** Salina Bridge

**Improvement Type:** Bridge Replacement

**State Route:** 1060

**Municipality:** Bell (TWP)

**Air Quality Status:** Exempt from Regional Conformity Analysis

**Actual Construction Bid Date:** 1/11/2024

**Estimated Construction Bid Date:** 1/11/2024

**Location:** BMS# 64 1060 0010 0000

**Project Description:** The State Route 1060 (Bridge Street)/Salina Bridge over the Kiskiminetas River and Norfolk Southern Railroad connects Bell Township, Westmoreland County with Kiskiminetas Township, Armstrong County. The project proposes to replace the Salina Bridge on a new alignment located immediately downstream from the existing wall bridge. The proposed bridge is anticipated to be a 3-span continuous composite steel plate girder bridge. The project will also address the existing deteriorated retaining wall parallel with SR 1060 approaching the bridge from the south. The approach roadway will be widened to provide 11' travel lanes and 5' shoulders. The intersections at each end of the bridge will be modified to improve maneuverability. Drainage will be upgraded as well as the guiderail, signs, and pavement markings.

\*No new capacity will be added\*

**Title:** LVTIP: Pleasant Unity to Airport

**Improvement Type:** Relocation/Realignment

**State Route:** 981

**Municipality:** Unity (TWP)

**Air Quality Status:** Exempt from Regional Conformity Analysis

**Actual Construction Bid Date:** 10/9/2025

**Estimated Construction Bid Date:** 10/9/2025

**Location:** PA 981 from Pleasant Unity to Airport  
 Mt Pleasant and Unity Townships, Westmoreland County.

**Project Description:** The LVTIP (Laurel Valley Transportation Improvement Project) project will upgrade 12 miles of the PA 981 corridor from the intersection with PA 819 in Mount Pleasant Township to the Westmoreland County Airport in Unity Township.

The LVTIP will be constructed in three separate sections. Section Y10 is the northern most and will tie into the recently completed 981-V10 project near the airport. SR 981-Y10 is approximately 2.5 miles in length and begins just south of the intersection of Bingham Road and the SR 2023 (Hill Churches Road) intersection in Mt. Pleasant Township. SR 981- Y10 then primarily follows existing SR 2023 northward to near the intersection with Green Street. At this point, the alignment proceeds in a northwestward direction to the Westmoreland Airpark. It then extends through the Airpark along the southern portion of Bay Hill Drive then intersects with existing SR 981 just south of the Arnold Palmer Airport. No new capacity is planned.

Corridor improvements would include on-line upgrades as well as segments of new alignment where upgrades are not feasible due to physical/environmental constraints.
