Title VI Compliance Plan

Purpose

The Southwestern Pennsylvania Commission (SPC, or “the organization”), as a recipient; sub-recipient; and, pass-through entity of federal financial assistance to certified sub-recipients is required to comply with all federal Civil Rights and Anti-Discrimination laws, including Title VI of the 1964 Civil Rights Act. This plan is intended to meet the requirements set forth by the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) to ensure nondiscrimination under Title VI and the aforementioned other federal statutes in federally funded activities. The plan also provides an overview of the Americans with Disabilities Act (ADA) concepts, definitions and associated nondiscrimination acts, and how these are incorporated into the metropolitan transportation planning and programming process.

Mission and Governance

The SPC is a metropolitan planning organization (MPO) serving a 10-county Southwestern Pennsylvania region. As the MPO, SPC directs the use of state and federal transportation funds allocated to the region---approximately \$31 billion through 2045. SPC member governments include Allegheny, Armstrong, Beaver, Butler, Fayette, Greene, Indiana, Lawrence, Washington and Westmoreland Counties and the City of Pittsburgh. As such, it is a federally mandated transportation policy board comprised of representatives from local, state and federal governments, transit agencies and other stakeholders, and is responsible for transportation planning and programming for the ten-county region. Any transportation project or program to be constructed or conducted within the SPC region and to be paid for with federal funds must receive approval by SPC before any federal funds can be expended. In addition, any transportation project deemed to be regionally significant, regardless of the source(s) of funding, must receive SPC approval to proceed.

Acknowledgements

This report was prepared by SPC in cooperation with the U.S. Department of Transportation (U.S.DOT), the Federal Highway Administration (FHWA), the Federal Transit Administration (FTA) and the Pennsylvania Department of Transportation (PennDOT).

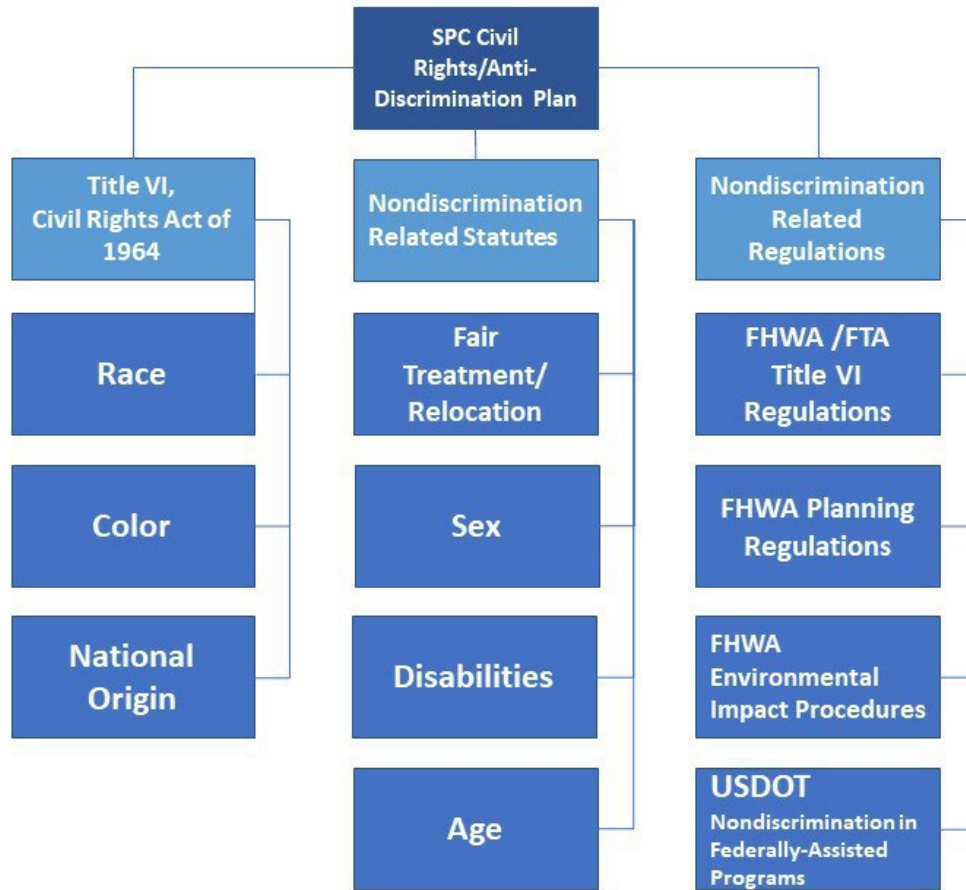

Authorities and Definitions

Title VI is usually referred to in the context of federal nondiscrimination laws. Title VI is, however only one of eleven titles included in the Civil Rights Act of 1964. Title VI *“declares it to be the policy of the United States that discrimination on the ground of race, color, or national origin shall not occur in connection with programs and activities receiving federal financial assistance and authorizes and directs the appropriate federal departments and agencies to take action to carry out this policy.”* Any organization that receives Federal funds is bound to comply with Title VI.

The Americans with Disabilities Act of 1990, found in 49 CFR 27 establish the basis for Community Demographics in transportation planning provide the background for the ADA compliance and nondiscrimination components of this plan.

Exhibit 1. Nondiscrimination Authorities Addressed in the SPC Title VI Program

Since the Civil Rights Act of 1964, other nondiscrimination laws have been enacted to expand the range and scope of civil rights coverage and applicability:

The National Environmental Policy Act (NEPA) of 1969 addresses both social and economic impacts of community demographics. NEPA stresses the importance of providing for “all Americans, safe, healthful, productive and aesthetically pleasing surroundings,” and provides a requirement for taking a “systematic interdisciplinary approach” to aid in considering environmental and community factors in decision-making.

The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 prohibits unfair and inequitable treatment of persons displaced or whose property will be acquired as a result of federal and federal-aid programs and projects.

The Federal Aid Highway Act of 1973 states that no person shall, on the grounds of sex be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal assistance under this title or carried on under this title.

Section 504 of the Rehabilitation Act of 1973 states that no qualified handicapped person shall, solely by reason of his handicap, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity that receives or benefits from federal financial assistance. This Act protects qualified individuals from discrimination based on their disability.

The Age Discrimination Act of 1975 states that no person shall, on the basis of age, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance. This act prohibits age discrimination in Federally Assisted Programs.

The Civil Rights Restoration Act of 1987, P.L. 100- 209 amends Title VI of the 1964 Civil Rights Act to make it clear that discrimination is prohibited throughout an entire agency if any part of the agency receives federal assistance.

The American Disabilities Act (ADA) of 1990 prohibits discrimination against people with disabilities in employment, transportation, public accommodation, communications, and governmental activities.

23 CFR Part 200 – Federal Highway Administration regulations: Title VI Program and Related Statutes – Implementation and Review Procedures.

49 CFR Part 21 – Nondiscrimination in Federally-Assisted Programs.

23 CFR Part 450 – Federal Highway Administration planning regulations.

23 CFR Part 771 – Federal Highway Administration regulations, Environmental Impact Procedures.

How Minority Mobility Needs are Identified in the Planning Process

SPC addresses the mobility needs of community populations by conducting a Community Demographics analysis during the development of the TIP and LRP and by preparing and updating a demographic profile of the region using the most current and appropriate statistical information available on pertinent data. SPC developed and maintains a GIS database with the

capability to analyze socioeconomic demographics, define target populations, and locate them spatially.

SPC maintains up to date mapping on identified communities of concern in our region, which is inclusive of but expands upon the federal Title VI mandates. Then, when the proposed candidate project lists have been finalized, SPC maps investments with these populations to ensure that an equitable amount of funding is going to communities, and that no undue burdens are being afforded. For example, SPC strives to ensure that asset condition is not disproportionately worse in regional communities, or that safety and/or access to resources like transit are not disproportionately worse. Furthermore, SPC shares maps of all communities of concern with proposed TIP projects at public meetings, to ensure people have a chance to understand the ways transportation investments may impact their communities.

SPC develops, maintains, and enhances public involvement efforts that are oriented toward achieving a better understanding of the needs and concerns of minority populations. SPC's Public Participation Plan and outreach strategies for community populations during the development and implementation of SPC plans and programs (including the CommuteInfo program). SPC disseminates information to the public on the processes used and findings of Community Demographics analyses.

Community Demographics

(Demographic Maps with Distribution of State and Federal Funds)

SPC regularly updates mapping utilizing up-to-date census data to identify and re-identify communities who are underserved, overburdened, or have been historically disadvantaged in the transportation planning process. This data is used to track the equity of investments, as federally-mandated, during the TIP and LRP development process. The most recent Community Demographics Analyses for the TIP and the LRP are posted to the SPC website at

<https://www.spcregion.org/programs-services/transportation/smartmoves-long-range-plan-transportation-improvement-program/>.

Summary of Outreach Efforts

A summary of public outreach efforts by date and location that were undertaken during the most recent TIP and LRP development processes is located in Appendix G.

Monitoring Subrecipients for Compliance with Title VI

All subrecipients are monitored by SPC's Finance Department for compliance with Title VI. The CommuteInfo vanpool program receives an annual allocation as a subrecipient of 5307 funds from the designated urban area grantee which is Pittsburgh Regional Transit. No competitive selection processes are conducted by SPC utilizing 5307 or other FTA funds.

Every two years, SPC administers a competitive selection process to identify projects for its allocated FHWA CMAQ funds. Since PennDOT stopped funding the Transportation Management Associations (TMAs), a portion of these funds have been awarded to the three regional TMAs, and once programmed these funds are flexed to FTA and administered by SPC. A record of these funding requests is located in Appendix H.

Should SPC enter into any further subrecipient agreements in the future, it will monitor

subrecipients for compliance with Title VI.

Membership Demographics

The SPC, is the region's forum for collaboration, planning, and public decision-making. As the official Metropolitan Planning Organization (MPO) for the ten -county region including the City of Pittsburgh and the counties of Allegheny, Armstrong, Beaver, Butler, Fayette, Greene, Indiana, Lawrence, Washington, and Westmoreland, SPC is responsible for planning and prioritizing the use of all state and federal transportation funds allocated to the region. The Commission has the authority and responsibility to make decisions affecting the 10-county region.

The Commission typically meets every other month, on the last Monday. Members serve multi-year terms and may be reappointed. The chair and vice-chair, elected by voting members, serve two-year terms.

The Commission is comprised of elected bodies from the ten-member Counties and the City of Pittsburgh. SPC staff provides demographic data on the composition of the member Counties to those bodies in order to assist Commissioners considering selection of participants for the County-sponsored Public Participation Panels.

In addition to the Commission, CommuteInfo has a partner group that meets on a quarterly basis. The partner group consists of various regional areas, businesses, communities and nonprofits—representing an array of interests, missions, and perspectives (See Appendix C for list of CommuteInfo Partner organizations). These meetings serve as a forum for regional exchange of information, coordination of promotion for TDM, ridesharing and transit under the CommuteInfo regional brand. Partner organizations and individuals participate in the CommuteInfo regional Partners meetings to help provide feedback and direction for the overall CommuteInfo program – including the regional vanpool program. Partners do not provide governance but an advisory function to provide feedback and suggestions on all program initiatives. CommuteInfo staff is available to assist Partners in the promotion of TDM strategies to employers and organizations in which they have an interest – including assistance in the formation of vanpool groups.

A complete list of Executive Board members and Commission members is listed in Appendix F. Additional Information

SPC Areas of Responsibilities and Planning Efforts

Communications and Public Participation

As described in the SPC Public Participation Plan, since transportation has a direct and personal impact on the population of a region and is of critical importance to economic vitality and quality of life, SPC continually endeavors to provide residents, affected public agencies, and other interested parties with reasonable opportunities to be involved in the transportation planning process.

Communications and public participation efforts apply to and affect the SPC work program as a whole, particularly SPC efforts and responsibilities related to the Planning and Programming and Community Demographics areas. The SPC Public Participation Plan includes specific information regarding outreach and communication strategies and detailed guidelines.

Examples of methods used by SPC to reach protected populations included:

- Hosting MPO meetings in or near neighborhoods with a substantial number of residents who belong to protected populations or “communities of concern.” These communities are re-identified regularly through census equity mapping and during the Transportation Improvement Program (TIP) and Long-Range Transportation Plan (LRP) Community Demographics Analyses.
- Proactive translation of planning and public involvement documents
- Willingness and ability to make MPO documents available to the sight-impaired, hearing-impaired, and those who are not proficient in the English language. For example, in addition to translating documents on-demand, SPC utilizes braille business cards with relevant contact information, and uses large-print mapping and signage at public participation events.
- Assembly of advisory committees’ representative of the community, through the public participation panels, as outlined in the Public Participation Plan.
- Use of display booths, etc. at events sponsored by community groups

SPC staff is responsible for evaluating and monitoring compliance with applicable nondiscrimination authorities in all aspects of the SPC public participation process. SPC staff members will:

- Ensure that all communications and public participation efforts comply with nondiscrimination authorities.
- Develop and distribute information on nondiscrimination and SPC programs to the general public.
- Prepare, or have prepared, translations of all vital documents and public meeting notices into three of the four identified LEP languages of Spanish, Traditional Chinese and Italian. Requests for translations of any of the fifteen languages that comprise the Indic language group will be provided as requested.

- Provide services for individuals with special needs – Upon advance notice, persons needing special accommodation for interpretive services for hearing or visual impairments, languages other than English, or other special needs can provide for public meetings. Notifications of opportunities for public participation will include contact information for people needing these or other special accommodations.
- Include the following statement in all of the SPC public notices:

The Southwestern Pennsylvania Commission (SPC) is committed to compliance with nondiscrimination requirements of civil rights statutes, executive orders, regulations and policies applicable to the programs and activities it administers. SPC is committed to ensuring that program beneficiaries receive public participation opportunities without regard to race, color, national origin, sex, age, disability, or economic status. Meetings are accessible and locations are serviced by public transit wherever feasible. SPC will provide auxiliary services at no charge for individuals with language, speech, sight, or hearing needs, provided the request for assistance is made 3 days prior to the meeting. SPC will attempt to satisfy requests made with less than 3 days’ notice as resources allow. Please make your request for auxiliary services to SPC Public Involvement Coordinator Ronda

Craig at (412) 391-5590, Ext. 0372, or rcraig@spcregion.org. If you believe you have been denied participation opportunities, or otherwise discriminated against in relation to the programs or activities administered by SPC, you may file a complaint using the procedures provided in our complaint process document or by contacting SPC's Title VI Coordinator by calling (412) 391-5590 or emailing TitleVICoordinator@spcregion.org. Planning and Programming

SPC is responsible for developing long and short-range transportation plans and programs to provide efficient transportation services for the SPC region. A comprehensive transportation process is used which entails the monitoring and collection of various data pertaining to transportation issues. SPC coordinates with PennDOT, counties, and area transit agencies; seeks public participation; and provides technical support when needed. An outreach plan for Transportation Improvement Program (TIP) and long-range plan (LRP) updates is included within the Public Participation Plan.

SPC Responsibilities

SPC staff is responsible for evaluating and monitoring compliance with applicable nondiscrimination authorities in all aspects of the SPC planning and programming processes. SPC staff will:

- Ensure that all aspects of the planning and programming process operation comply with nondiscrimination authorities.
- Prepare and update a demographic profile of the region using the most current and appropriate statistical information available on race, income, and other pertinent data.
- Make the document available to the public and member agencies on the SPC website or in hard copy format, if requested.
- Continue to ensure that staff makes concerted efforts to involve members of all social, economic, and ethnic groups in the planning process. SPC is working to integrate equity and civil rights considerations throughout all plans. SPC's LRP includes multiple goals and objectives that address the needs of community populations and special needs groups. Every new planning product/document that SPC produces should address equity and civil rights and make every effort to be inclusive of all people in the development process.

Exhibit 2 summarizes the major documents adopted by SPC along with their characteristics and relationship to civil rights or EJ considerations. Typical topics include:

- Provision of mobility to the transportation disadvantaged
- Enhanced transit service, which is assumed to benefit low-income populations more than others
- Improved access and mobility for transportation-disadvantaged populations
- Involvement of traditionally underserved or special needs populations

Community Demographics

The concept of Community Demographics includes the identification and assessment of disproportionately high and adverse effects of programs, policies, or activities on various population groups. Within the context of regional transportation planning, Community Demographics considers the relative distribution of costs and benefits from transportation investment strategies and policies among different segments of society.

SPC Responsibilities

SPC staff is responsible for evaluating and monitoring compliance with applicable nondiscrimination authorities in all aspects of the SPC efforts to address Community Demographics. SPC staff will:

- Ensure that all aspects of efforts to address Community Demographics
- Conduct a Community Demographics analysis during the development of the TIP and LRP.
- Prepare and update a demographic profile of the region using the most current and appropriate statistical information available and pertinent data, and maintain a GIS database with the capability to analyze socioeconomic demographics, define target populations, and locate them spatially.

- Develop a process for assessing the distributional effects of transportation investments on accessibility of community populations to jobs and services and on the availability of transportation alternatives in each region. Document the results for use in planning decision- making.
- Maintain and enhance public involvement efforts that are oriented toward achieving a better understanding of the needs and concerns of community populations. SPC’s Public Participation Plan includes guidelines and outreach strategies for community populations during the development and implementation of SPC plans and programs.
- Disseminate information to the public on the processes used and findings of Community Demographics analyses.

Consultant Contracts

SPC is responsible for selection, negotiation, and administration of its consultant contracts. SPC operates under its internal contract procedures and complies with all relevant federal and state laws.

- Review consultants for compliance as described below:
- Ensure that all consultants verify their compliance with nondiscrimination authorities, procedures and requirements.
- If a recipient or sub-recipient is found to be not in compliance with nondiscrimination authorities, the Title VI Coordinator and relevant staff will work with the recipient or sub-recipient to resolve the deficiency status and write a remedial action if necessary.
- Review outreach activities to ensure small, disadvantaged or minority, women and disabled veteran-owned businesses are not excluded to participate in opportunities to compete for consulting contracts.

Education and Training

In an effort to continuously improve SPC’s nondiscrimination program, training will be coordinated with FHWA and PennDOT, and made available to SPC staff on an ongoing basis to ensure up-to-date knowledge of Title VI and other nondiscrimination statutes.

SPC Responsibilities
